## **CAREER OBJECTIVE**

*I am a future white hat hacker, meaning I will use my coding and security knowledge to test the effectiveness of cyber defense algorithms. In the summer of 2024, I participated in the NYLF Engineering program at Georgia Tech, where I had the opportunity to stay on campus for a week and engage in various engineering-related activities. For my career path, I plan to earn my bachelor's degree in Computer Science at Northern Illinois University (NIU) and then pursue my master's degree at Georgia Tech.*
